

Reading Comprehension - The Helpful Robot

Tomer got a robot kit for his birthday and spent the whole day building it. Once it was complete, he programmed it to do simple tasks like picking up toys.

His sister, Shira, was skeptical at first but became impressed when the robot cleaned her room.

"Wow, it's like having a little helper," she said.

Tomer felt proud of his creation and planned to teach it more tasks in the future.

Questions:

1. What did Tomer get for his birthday?

2. What could the robot do?

3. How did Shira initially feel about the robot?

4. What changed Shira's mind?

5. How did Tomer feel about his creation?

6. What did Tomer plan for the future?
