

Unseen #3 – The School Fair

Sara and her friends are really excited. Their school is having a fair, and they want to make a game booth. They decide on a ring toss game. Sara's dad helps them build it.

At first, things don't go well. The rings are too big and keep falling off. Sara feels a bit sad but doesn't give up. They try smaller rings, and it works!

The day before the fair, they do a test run with some classmates. Everyone loves it, but they run out of small prizes quickly. Sara's mom suggests using stickers as extra prizes, and they all agree it's a great idea.

Finally, the day of the fair comes. Lots of kids play their game, and everyone has fun. Sara and her friends feel proud. They even win a prize for "Best Game Booth!" Sara realizes that working together and not giving up can make things turn out great.
